

BRAND GUIDELINES

VERSION 1.0 / SEPTEMBER 2026

This document is the single source of truth for the Happy Tails brand: the voice of a shopkeeper who never sleeps, the ink-and-paper look of the signboard on Bela Road, and the rules that keep every poster, post and pixel consistent.

PLOT 14-B, RAMNA PLAZA, BELA RD, G-10 MARKAZ,

01 / THE STORY

THE SHOP THAT NEVER CLOSSES.

Happy Tails began as a weekend counter in Ramna Plaza and grew into the shop Islamabad's pet owners call at 3 a.m. Three counters share one room: the store (food, litter, accessories, toys), the clinic (vaccines, medicines, the vet), and the front window (kittens and dogs, including rescues). The brand must always feel like that room: honest, stocked, awake.

HONEST

Real stock counts, real price bands, no inflated claims. Say "two left" when there are two.

AWAKE

24/7 is not a slogan, it is the operation. The brand speaks like someone on night duty.

HANDS-ON

Animals are held, not shipped. Advice is given over the counter, in plain language.

02 / LOGO

THE RED MARK.

The logo is a red plate carrying a cream dog head and a curled tail stroke, with the wordmark set in a heavy grotesque. HAPPY in ink, TAILS in red. The mark is drawn from the shop's signboard: the leaping cat and dog against the sky.

DO

- Keep clear space equal to the height of the H on all sides.
- Use the mark alone for avatars, stamps and favicons.
- Minimum size: 24 px mark, 90 px horizontal lockup.

DON'T

- Never add gradients, shadows, outlines or rounded corners.
- Never recolour the dog or swap the red plate for another colour.
- Never stretch, rotate or retype the wordmark in another font.

03 / COLOUR

INK, PAPER, SIGN RED.

Five working colours and two support tones. Paper is the default surface; red is spent like money, deliberately and visibly.

RATIOS

Paper and ink carry about 80 percent of any layout. Red is roughly 10 to 15 percent. Mustard, sage and steel share the rest. If a design looks "colourful", it is wrong.

04 / TYPOGRAPHY

THREE FACES, NO MORE.

DISPLAY

Archivo Black

Headlines and buttons. Set in caps, tight leading, negative tracking. Never italic, never light.

TEXT

Archivo Regular

Body copy and product descriptions. Sentence case, generous line height.

DATA

Space Mono

Prices, stock counts, labels, captions. Always uppercase with wide tracking.

SCALE

USE	FACE	SIZE / DESKTOP	NOTES
H1	Display	56 to 72 px	Two lines max, one red word allowed
H2	Display	30 to 40 px	Caps
Body	Text	16 to 18 px	Max 64 characters per line
Label	Data	11 to 12 px	Uppercase, 0.18em tracking

05 / GRAPHIC LANGUAGE

COUNTER-TOP GRAPHICS.

Devices borrowed from the physical shop. Use at least one per layout, never all at once.

2 px ink borders

Offset hard shadow

Every box is drawn with a hard 2 px ink rule. Corners are always square.

Boxed content, 2 px rule

Shadows are flat ink blocks, offset 4 px. No blur, ever.

4 px ink block

Dashed cut lines

Sections separate like coupon edges.

Sticker photos

Photos sit on white sticker mats, tilted at most 2 degrees.

Tape labels

Category tags are ink or red rectangles with mono caps, butted to the photo edge.

FOOD

PHARMACY

Ruled and graph paper

Backgrounds may carry faint 28 px grid or receipt ruling. Text sits on plain zones.

06 / VOICE

TALK LIKE THE COUNTER.

Plain, warm, exact. The brand speaks Urdu-hearted English the way Islamabad actually talks, without marketing varnish.

SAY

- "Only two left, we restock Friday."
- "Send the photo on WhatsApp, the vet will look first."
- "Rs 1,400 a month for the spot-on course."
- "Call before you drive over, we will keep it aside."

NEVER SAY

- "Elevate your pet's lifestyle with premium solutions."
- "Unleash happiness today!"
- "Best quality guaranteed 100 percent."
- Any exclamation mark. The brand does not use them.

MECHANICS

- No em dashes. Use commas, colons, or full stops.
- No exclamation marks anywhere in brand copy.

- Numbers for everything countable: "2 kittens", "24/7", "Rs 6,900".
- Urdu greetings welcome in scripts and captions: "Assalam o alaikum" opens WhatsApp orders.

07 / PHOTOGRAPHY

REAL ANIMALS, REAL SHELVES.

USE

- Daylight photos of animals looking at the camera or mid-play.
- Shelf photos that show real stock and hand-written price tags.
- Warm tones that sit near Paper and Bone. Photos must not fight the palette.

AVOID

- Studio-white pack shots floating on shadows.
- Stock models holding puppies in cashmere.
- Heavy filters, HDR halos, or any photo with a gradient wash.

CURRENT SITE IMAGERY IS PLACEHOLDER PHOTOGRAPHY
BY PEXELS AND PIXABAY PHOTOGRAPHERS; REPLACE WITH
REAL SHOP PHOTOS AS THEY ARE SHOT.

Signage

Signboard keeps the hand-painted character of the original: cream field, red display caps, animal silhouettes allowed to break the border.

Social

Fifteen standing templates live in **/social-media-posts**, one per post type, all built on this system. Post 1080 by 1350 for feed, 1080 by 1920 for stories.

QUESTIONS

WHEN IN DOUBT, ASK THE COUNTER.

If a design decision is not covered here, choose the option that looks like it was made by hand, priced honestly, and could survive a night shift. That is the brand.
